“ I’m so sorry to hear that William Finger passed away , although I’m not sure this is the same person, his age and photo look just like him , I knew him in Brooklyn and he was a hero to me , lost contact in late 70s . As a kid he played handball , Sunday nights he stopped by and watch old Sherlock Holmes movies . I wish I had a chance to see him again but I’m glad that he had a good life. Billy Hickey

Father finger from Brooklyn, New York that got kicked out of Catholicism for raping all of the children I hope you’re burning in hell if anybody reached this look up father William finger, Brooklyn, New York he was supposed to be a priest that helped the children that had mental problems, but he was raping them. He had a job at Grayson And Associates in Birmingham, Alabama and one of his former victims came in and said that she had been assaulted by him and that dude was gone the next day. I highly doubt he’s dead now but I hope he is. I hope he’s burning in hell.

*I saw father finger at Grayson And Associates in my early 20s not knowing that he had been a priest that got kicked out for raping, children, and mental problems, and all he did was trying to convince me that my repressed memories were not accurate and no matter what I did that I should not press charges on my father who have been raping me since I was a baby. I had no idea what I was dealing with and then about a couple of months before it came out on the news that he was father William E finger from Brooklyn, New York I walked in there and he's got his dick out and he starts walking towards me and he said I know you like older man and I said you need to stay the away from me he kept coming closer so I punched him in the face and knocked her mouth. I hope he's burning in hell but I highly doubt that he's dead so I figured he only wanted children, but I was 20 or 21 and he tried with me and I was actually out and about, and I noticed that his car was right beside mine with his flashers so you know what don't believe what you say this is the evil man. There's a reason Grayson And Associates fired him if you don't believe me Google, William E finger Brooklyn*
